Summary/Objective

Seeking a Project Manager role to apply leadership, team coordination, and risk management skills. Former U.S. Navy Radio Supervisor with experience in secure communications and high-pressure decision-making. Currently pursuing a B.S. in IT Cybersecurity with an interest in IT project management.

US Navy Radioman/IT (Feb 2017 - Sept 2024)

- Held a Top Secret Security Clearance (Dec 2018 - Sept 2023), demonstrating trustworthiness and adherence to strict security protocols.
- Served 5 years active duty onboard a submarine, acquiring leadership, stress management, and problem-solving skills crucial to personal and professional development.
- Performed routine maintenance for servers, resolved printer issues, and enforced network security protocols through strong password policies, safe practice training, and periodic system audits.
- Managed cryptographic material within a SCIF and ensured secure communications in high-pressure environments, contributing to overall network integrity and data protection.
- Transitioned to Navy Reserves in 2022, maintaining proficiency in IT systems, secure communications, and cryptographic materials management while supporting ongoing operations.
- Led a team of four, overseeing secure communications, classified information management, and operational efficiency in high-pressure environments.
